Waynesboro Nurseries

INC.

WAYNESBORO, VA.

Branch Nursery: Boxwood Gardens, Afton, Virginia

SPRING 1936 AND FALL 1936

FRUIT TREES, ORNAMENTALS, AND LANDSCAPE SERVICE of the highest quality. The remarkable growth the Waynesboro Nurseries have made since their beginning fourteen years ago is convincing that our stock and service are pleasing. With only the best of plant material and service would it have been possible to have built up in such a short time the largest Nursery business in Virginia and one of the largest in the East. Our appeal has always been offering plant material of the highest quality, delivered in good condition at reasonable prices. We solicit your continued business on these terms.

OUR STOCK AND PRICES. Being governed strictly by price in buying Nursery Stock is false economy. The best is the cheapest, even though the initial cost is more. Our prices are based on furnishing vigorous, healthy trees true to name, grown and sold on a small margin of profit and delivered in first class condition. For the benefit of those who are willing to use small sizes of trees and plants and wait for them to grow, we offer the Mail Order Sizes in Shrubs and small sizes of Fruit Trees for less than standard sizes. Our small plants are healthy, true to name, and will give satisfactory results. We, however, believe in most cases it is economy to purchase medium or larger sizes.

WE PAY TRANSPORTATION CHARGES to points in Virginia and adjoining States. Instead of paying transportation to other States, we allow 10% discount from list price.

WE GUARANTEE SAFE DELIVERY and stock to be as represented in our catalogue.

TERMS. When remittance in full accompanies order, we allow a liberal premium in free stock. Orders for C.O.D. shipments are accepted and booked when a deposit of as much as 25% accompanies order.

WE FURNISH FREE, f.o.b. our shipping point, Ornamentals for replacing any reported within twelve months as being dead, provided the original shipment was paid for not later than thirty days after delivery and the stock was given reasonable attention by the purchaser. Fruit Trees and Berry Plants for replacing those reported within twelve months after date of delivery as being dead will be replaced f.o.b. our shipping point at one-half catalogue list price. Replacements for Ornamentals which were not paid for within thirty days after delivery but paid for in full at the time report is made will be furnished f.o.b. our shipping point at one-half catalogue list price.

VARIETIES AND QUANTITIES. In case you do not find listed the variety, quantity, or size desired, write for further information.

MAKING UP ORDERS. Do not fail to give sizes, quantities, and varieties wanted. Also give shipping point if different from post office, and approximately when you would like your stock shipped. We furnish 6 at dozen rate, 30 at 100 rate, and 300 at 1,000 rate, with the exception of Berry Plants, Bulbs and Perennials, which are sold not less than 50 at 100 rate, and 500 at 1000 rate, with exceptions noted.

NOTICE OF WARRANTY. While we are very careful to keep our varieties true to name, in the event they should prove otherwise, we cannot be responsible for more than the amount we receive for the stock.

FRUIT TREES

Planters in various communities demand different sizes and varieties, so we offer a large list of both. All of our stock is clean, healthy, true to name, and bears a State Certificate of Inspection. Our list of varieties is carefully worked out. Whether you are planting a commercial orchard or a small home orchard you can make a suitable selection from our list.

APPLES

The following varieties for home orchards will furnish Apples from the earliest to the latest: Yellow Transparent, Summer Rambo, Williams Red, Delicious, Lowry, Winesap, and N. W. Greening.

- Rome Beauty.** A well-known striped Winter Apple. Very near sweet.
- Smokehouse.** Aug.-Sept. Striped. Favorite home orchard variety.

Summer Rambo. Undoubtedly one of the best Summer varieties of its season. Large, striped, excellent quality. Ripens in August.

Sweet Paradise. Most popular Fall sweet Apple.

Tolman Sweet. Yellow Winter sweet Apple.

TOWN TALK

Town Talk is more than a novelty and a curiosity. Conceive six different varieties growing on one tree. You can have Apples ripening from June until late Fall, when the late varieties may be gathered for Winter use. Town Talk is not a commercial proposition but ideal when space permits only two to four trees. Imagine a tree bearing six varieties at one time and being able to enjoy ripe Apples from your own back lot from June until November, then possibly having some to store for Winter use.

3 yr., 6 to 7 ft. trees, \$2.75 each, two for \$5.00, four for \$9.50, delivered.

Stayman. 1 yr. only. One of our most popular commercial Apples of the Winter varieties. Large, red, green striped.

Virginia Beauty. Resembles Delicious in quality and shape; darker and extra fine quality.

Winesap. Standard commercial variety. Medium size. Solid red.

Yellow Transparent. 1 yr. only. The earliest Apple on our list. A very popular early Apple. Medium size and excellent for cooking purposes.

YORK IMPERIAL. The most extensively planted Apple in Virginia for commercial purposes. Greenish background, red cheek, good quality and keeper. In demand for both local and foreign markets.

YORKING

On May 28, 1935, was awarded United States Patent No. 125.

A New Solid Red York having all the good qualities of the famous old York and the tremendous advantage of being a Solid Red, a pleasing purplish red, and coloring two weeks earlier than the standard York.

Yorking is one of only a few Apples ever to be honored with a United States Patent. You can imagine what a Solid Red York—every Apple on the tree being a solid, bright red—would mean to the grower. That is exactly what we offer in the Yorking.

Only a limited supply of Yorking trees will be available for Fall '36 and Spring '37 at the following prices:

	Each	Doz.	100	1000
1 yr. 18-24 in. \$.60	\$ 6.00	\$40.00	\$350
1 yr. 2-3 ft.65	6.50	45.00	400
1 yr. 3-4 ft.80	8.00	55.00	450
2 yr. 4-6 ft.	1.25	12.50

NEW SOLID RED DELICIOUS

A "Super" Delicious. An Apple with all the good qualities of the Common Delicious: Same size, same shape, same flavor, same texture and same ripening period, but the New Solid Red Delicious colors two to three weeks earlier and colors solid red without trace or sign of stripe, even into the stem and blossom ends. It can be picked "hard ripe" with full color. It has excellent storage qualities and is the most beautiful Apple ever seen. Write for further information.

LOWRY

Beautiful dark red Winter Apple, enjoying the reputation of selling for the highest price of any Apple grown in Virginia. It sells for \$1.00 to \$2.00 more per barrel than standard varieties. Always in demand both as a home variety and a commercial Apple. The Lowry should be in every orchard whether home or commercial.

NEW RED ROME

Same as Rome Beauty with the exception of being a solid red.

NEW SOLID RED STAYMAN

1 yr. only. A solid red Stayman. Sport of the well-known Stayman, having all the good qualities of the Common Stayman and the big advantages of being solid red in color instead of pale striped greenish coloring found in the Common Stayman. Write for further information.

NEW SOLID RED JONATHAN

1 yr. only. Same size, quality and shape as Common Jonathan and differs only by coloring two weeks earlier and coloring solid red.

Lady. Small; golden background, red blush; highly flavored; excellent quality. Demands unusually high prices, having sold for as much as \$20.00 per barrel on U. S. markets and is equally as popular on export markets. Trees very scarce.

New Red Duchess. Differs from the Standard Duchess by having more color and coloring earlier in the season.

Turley. 1 yr. only. Somewhat resembles Stayman but has better color and is somewhat larger. Does not crack. Yellow flesh. More regular bearer than the Stayman.

Yellow Delicious. 1 yr. only. Resembles Grimes Golden but larger, more prolific, and earlier bearer.

Golden Jubilee Peach

CHERRIES

Plant Cherries commercially for profit. They are easily grown and prices for the fruit are always high. They produce large crops comparatively early and are not affected by many diseases or pests. Write for more information about Cherries. Bing. Good dark red sweet. Best shipper. Black Tartarian. Well-known commercial sweet. Early Richmond. Best known sour. GOVERNOR WOOD. Most popular wax variety. Lambert. Favorite dark purple sweet. Large Montmorency. Best large red sour. Napoleon. New wax variety. Yellow, red cheek.

PEARS

Pears will continue to be scarce and sell for good prices as few have been planted within the past twenty years. Plant now for both home use and market. Bartlett. Well known. Most popular Summer Pear. Ripens August. Cayuga. Improved Seckel. 2-3 ft. and 3-4 ft. sizes only. Clapp's Favorite. A young and early bearer. Very good quality. Garber. Rapid grower, good quality. Splendid where assortment is demanded. September. Kieffer. The most extensively planted Pear. Quality not as good as some, but one of our best canners. Koonce. Early, medium size, yellow with carmine cheek. Heavy bearer, blight resisting. July and August. Seckel. Small, sweet, excellent quality. Fine for pickling, canning, or eating from the hand.

	Each	Doz.	100

A GOOD TIME TO PLANT PEACH

Peach have always been a quick money crop and one of the most profitable fruit crops. Peach planting for the past five years has been light and we predict planting made at this time on suitable land affords an opportunity for greater profits than ever.

MUCH DEPENDS ON THE TREES YOU PLANT

Our Peach Trees are budded on the old-time native hardy seedling Peach, giving them the best root system possible. Our sandy loam soil is also conducive to a vigorous, fibrous root system. Our modern tree digger enables us to dig trees with all their roots. Our experience in growing many million trees has taught us how to handle and deliver in such condition that the best of results may be expected.

With the many advantages we have in growing Peach we can quote our trees at very reasonable prices. In some cases cost no more than trees you could not afford to plant.

For your convenience we are listing our Peach in ripening order. If more complete descriptions are required write us or consult our local representative.

RHUBARB

Myatt's Linnaeus. Early, long, tender stalks, neither tough nor stringy. 30c each, \$3.00 per doz., \$15.00 per 100.

ASPARAGUS

Pedigreed Washington. There are a lot of different varieties. Some nurserymen list as many as half a dozen, but the Pedigreed Washington has been proven far superior to the old varieties, so why plant the others? We list only the Pedigreed Washington.

- 1 yr., field grown roots: 75c per doz., \$2.50 per 100, \$12.00 per 1,000.
2 yr., field grown roots: \$1.00 per doz., \$3.50 per 100, \$15.00 per 1,000.

STRAWBERRIES

There is more variation in the price of Strawberry plants than most Nursery Stock. Why is it? There is a reason. Some dig plants from old bearing patches and sell the plants as a by-product. They must necessarily be sold at a low price as the more experienced planters will not use such plants. Hence such growers must find customers who buy where the cheapest plants are to be had, regardless of whether they are old or new. Delivery costs also are to be considered. We pay transportation charges and guarantee safe arrival. We furthermore agree to furnish at half list price plants for replacing any plants which may be lost the first season from causes beyond our control.

Varieties are listed in ripening order, so you may make a selection ripening from the earliest to the latest.

FAIRFAX—A New Sensation. Early, prolific, unusually productive, large and firm. Introduced by U. S. Department of Agriculture.

DORSETT. Another U. S. Department of Agriculture introduction. Early, productive, frost resistant, large, firm. One of the most promising new varieties.

ORNAMENTAL AND LANDSCAPE DEPARTMENT

From our selection of choice Shrubs, Evergreens, Shade Trees, Roses, Tuberos Plants, and Perennials, a selection can be made suitable for any requirement.

Landscape Service. We employ a professional landscape architect and a number of practical, well trained field men whose services are always available for our customers. If we can be of any service to you, do not hesitate to call on us.

Our standard grade of stock is grown chiefly for the larger landscape developments and is not to be compared to light Mail Order Grades often quoted. Even the smaller stock we list as "Mail Order Grade" is well rooted, branched, and much of it will give immediate effect.

Make use of our Landscape Department. We have established it for your benefit and it is at your command. If too far away for one of our landscape men to see you, send in measurements of your grounds and a photo of the house for suggestions.

DECIDUOUS SHRUBS

All Shrubs quoted at 35c each will be furnished at \$25.00 per 100; all 50c Shrubs at \$35.00 per 100; all 75c Shrubs at \$60.00 per 100, except as noted. Ask for special prices on larger quantities.

Amur River Privet Hedge

PRIVET HEDGE

A Privet hedge is much cheaper than a fence and is far more attractive. It not only serves the purpose of a fence, but is decidedly more ornamental. Do not confuse our Privet hedge with the lighter grades often offered as of the same height. Our Privet has been grown in nursery rows for two or more years and has been cut back to the ground after its first year. It has many more branches and a much better root system. Therefore, our plants will make a beautiful hedge in a shorter time than the light plants of equal height.

AMUR RIVER PRIVET (Evergreen)

New evergreen, Southern type. Makes a very dense, compact hedge, resembling Boxwood. It holds its foliage throughout the Winter in Virginia and adjoining states.

EVERGREENS

Evergreens are indispensable in present-day landscaping. Few plantings are complete without them. They are delightfully beautiful the year 'round. In Spring when they start their new growth they are most interesting. During the Summer they present an excellent background for flowering shrubs and during the Winter their live, green color adds an expression of cheerfulness and warmth.

We take pride in our evergreens and our method of preparing them for our customers. We shear them carefully to make them uniform, compact specimens. When we prepare them for shipment we take them up with the soil in which they were grown and tie the soil firmly about the roots with burlap and rope. You will find that our evergreens will grow almost without exception.

CHINESE ELM

Graceful as a Birch. Rapid growing as the Poplar. Beautiful as the Maple.

Recently introduced by the United States Department of Agriculture and pronounced by the Department in Yearbook of 1926:

"As a shade, windbreak, and avenue tree, the Chinese Elm has proved to be the most successful introduction of this kind thus far attempted.

"A rapid grower, with slender, almost wiry branches. It is one of the first trees to leaf out in the Spring, and the last to shed its foliage in the Fall. Throughout the long season the leaves remain a beautiful green and are remarkably free from the usual plant diseases and insect injuries so common in many of the other Elms."

GLADIOLUS

The Gladiolus continues to be our most popular cut flower. No flower is more easily grown. Gladiolus bloom within ten weeks from time of planting and continue to bloom through late Summer and Fall. They should be planted at intervals of about two weeks apart.

By all means plant some of the Autumn Queen. This odd variety should be planted in early Spring in order to get best results. Unlike most of the other varieties, the Autumn Queen will bloom from the first of September until frost. The spikes will often be 3 to 4 feet long.

The New Soil Conditioner and Plant Food, "Rho-Za-Grow" has taken the guesswork out of Rhododendron growing.

Rhododendrons and their kindred broadleaved evergreens, the Azaleas, Kalmias, Andromedas, etc., are lovely things, but many planters hesitate to plant these aristocratic American shrubs because of their exacting soil requirements.

"Rho-Za-Grow" is a scientifically balanced soil conditioner and plant food. Use it on all plants requiring sour soils. "Rho-Za-Grow" contains exactly the proper balance of acids, neutral plant food, and humus. It sours and lightens the soil, and it has high plant food content.

Apply it to your Rhododendron and Azalea beds, and they will show their appreciation with a wealth of gorgeous blooms and healthy, deep green foliage.
